

What is an Income Share Agreement (ISA)?

Pay \$0 Tuition Until You Land a Job

Pay nothing during school and up until you find a job paying at least \$30,000 dollars a year. If you are unable to find a job during your entire ISA you never make a payment.

Stop Paying Once You Reach The Cap

Every TradeUp ISA has a payback cap. Once you hit that cap, your payments stop and your ISA is complete. Unlike traditional loans, your ISA will also expire after a set period of time.

Payments Scale With Your Salary

You never have to worry about your payments being too expensive, because ISA payments are based on a fixed percentage of your salary. No income? No payment.

Deferment And Downside Protection

Life happens: we get it. If you temporarily can't work or lose your job, your payments pause automatically. Because ISAs have no interest, your debt doesn't get any bigger while your payments are paused.

TradeUp ISAs end in one of three ways:

1

You make the set number of payments

2

You pay up to the ISA cap

3

The payment window on your ISA expires

That's It!
